IMPORTANT: Applicant must complete pages 1, 3 and 4 completely before the application will be considered.

City Code, Section 11.24, Subd. 3, requires that the Board of Appeals and Adjustments shall not grant a variance unless it finds the following facts after evidence is submitted by the applicant to exist:

A. A variance shall be permitted only if the applicant establishes "practical difficulty" in complying with the code, and that the variance is in harmony with the general purpose of this Chapter and consistent with the comprehensive plan. In its consideration of the standards of practical difficulties, the Board of Zoning Appeals and Adjustments must make the findings of fact, as follows:

1. The property in question cannot be put to a reasonable use if permitted to be used only under the conditions allowed by the regulations governing the district in which it is located; and
2. The plight of the landowner is due to circumstances unique to the property that are not normally applicable to landholdings within the same district and that were not created by the landowner; and
3. The variance, if granted, will not alter the essential character of the neighborhood and locality.

B. A variance shall be granted only if the evidence, in the judgment of the Board of Appeals and Adjustments, satisfies the conditions enumerated in subparagraph A above. Variances from the provisions of this Chapter shall be granted by the Board of Appeals and Adjustments only in accordance with the

provisions of this section. The Board of Appeals and Adjustments may not permit, as a variance, any use that is not allowed under the code for property in the zone where the affected property is located.

C. Specific conditions and safeguards may be imposed upon the premises benefited by the granting of the variance. A condition must directly be related to and must bear a rough proportionality to the impact created by the variance. Violations of such conditions and safeguards shall constitute a violation of this Chapter.

D. No variance permitting the erection or alteration of a building shall be valid for a period longer than one year unless a building permit for such erection or alteration so issued and construction is actually begun within that period and is thereafter diligently pursued to completion.

VARIANCE APPLICATION ADDENDUM

To grant a variance, the City must make certain finding (see attached portion of City Code). The applicant must submit evidence supporting the following:

1) Without the variance, the property cannot be put to a reasonable use.
Why?-Reasons.

WITH PROPOSED BUILDING SIZE (45X130) THERE WOULD NO BE SUFFICIENT PARKING IN THE FRONT
IF WE NEED TO REDUCE BUILDING SIZE, IT WOULD HAVE TO BE MADE VERY LONG AND SKINNY,
NOT SUITABLE TO BUILD.

2) The circumstances requiring the variance are unique to the property (not normal to the zoning district or neighborhood) and were not created by the owner.
Why?-Reasons.

BOUNDARIES OF THE LOT WERE IN PLACE PRIOR TO THE ESTABLISHMENT OF THE 60' SET BACK FROM RIGHT-OF-WAY.

3) The variance will not alter harm the character of the neighborhood.
Why?-Reasons.

WE ARE ONLY SEEKING VARIANCE TO THE WEST, WE WOULD BE BUILDING NEW BUILDING AND DEMOLISHING
OLD BUILDING AND ADDING TO NEIGHBORHOOD APPEAL. EXISTING BUILDING TO THE WEST AND NORTH
DO NOT FOLLOW EXISTING SET BACKS AS WELL.

The applicant should be prepared to attend the public hearing and further justify the variance, answer questions, etc. It is the duty of the applicant to justify reasons and give evidence in support of granting the variance. It is not the City's responsibility to prove why the variance should or should not be granted.

This application, if granted, would vary the requirements set forth in Luverne City Code;
