Chair Nath opened the Public Hearing at 5:05 p.m. During the public hearing, the Planning Commission reviewed five conditional use permit (CUP) applications for cannabis retail and manufacturing establishments at various locations throughout Luverne. Staff explained that each application was required to meet city zoning ordinance standards, including designated zoning districts and buffer requirements from schools and parks. The purpose of the CUP process is to ensure that proposed uses will not be injurious to neighboring properties, impede orderly development, or lack adequate utilities and parking, and that any potential nuisances such as odor are addressed. Public input was received from Ken Vos, which included questions regarding parking, setbacks from residences, and hours of operation, which staff addressed by

referencing city and state regulations. It was clarified that neighborhood opinion alone is not a valid basis for approving or denying a CUP; decisions must be based on whether the application meets ordinance standards. The Commission discussed each application individually and noted that, if all ordinance requirements are satisfied, the city has no legal basis to deny a CUP. The Commission will make recommendations to the City Council, which will take final action on the applications. With no further comments to consider, Nath closed the public hearing at 5:25 p.m.
